

State Water Resources Control Board (SWRCB)

Letter No. 009

Subject: Reporting of Analysis and/or Report Approval In EDF

Date: April 26, 2002

Overview:

The *APPRVD* field was designed to provide a means of indicating the individual in the laboratory who reviewed and approved the analytical result(s). This field may be used at either the analysis level (where the approval is indicated on an analysis by analysis basis, usually by a department supervisor), or at the laboratory report level (where the same individual approves all analyses in a laboratory report [usually a Quality Assurance Officer]). Either approach is acceptable.

Special Conditions:

None.

Areas of Impact:

Field(s): *APPRVD*

Entry: Up to 3 characters representing the initials of the individual approving a single analysis or the entire report
